Murphy (METs) Programme

15 weeks walking schedule

The following is a 15 week walking schedule. It is broken into 5 x 3 weeks cycles. Each cycle has a set amount of time to accomplish in a given week. This allows your body to adapt to the stress within each cycle before moving to a higher volume. The main goal is to accomplish the total weekly minutes. Another day can be added to help accomplish weekly goal. But, before starting this training plan, talk with your doctor if you've been sedentary for a long time or you have serious health issues.

Weeks	METs	Tuesday	Thursday	Saturday	Hr:mins per/week
